

RESTRICTOR PLATE RECOMMENDATIONS

DESCRIPTION:

These are baseline recommendations for cam design, jetting, RPM range, and timing for restrictor plate engines.

SPEC:

CLASS	CAM	LOW/HIGH JET	TARGET RPM	TIMING
RED PLATE	CL2	26 / 39.5	5000 - 5400	36deg
GREEN PLATE	CL2	26 / 38.5	5400 - 5800	36deg
PURPLE PLATE	CL2-R2	28 / 38	5800 - 6200	35-36deg
BLUE PLATE	CL2-R2 / CL3	30 / 7.5	6000 - 6400	35-36deg

Note: These recommendations are based on our testing and may vary from one engine builder to another. All recommendations are based on engines utilizing a big pipe pre the rules for restrictor plate engines. If you ever have any questions regarding your engine setup, please contact us for support.
